COMPANY PROFILE

Established in 2018 with a burning desire to meet the growing demand for quality service delivery in the maritime and Oil & Gas sectors, Western Pacific Solutions Limited has grown to be a major marine support service company in Nigeria and other West African countries.

Within its few years of existence, Western Pacific has proven to be the leading and fastest growing company dealing majorly in Marine Support Services, Waste Management Services and Engineering Designs.

Our time and cost effective approach to demands has earned us commendations and recommendations from our clients who are satisfied with our services, at all times and in all places, we provide safe, efficient, reliable and timely services to suit the need and requirements of our clients.

Established and managed by men with wealth of experience in our chosen areas of service delivery, we are confident that our expertise is adequate to satisfy safe, efficient and cost effective services when required.

OUR MISSION

To provide unparalleled timely and quality support services and product delivery of all sort to our numerous clients.

The background image shows a large container ship docked at a port. The ship's hull is dark blue with the letters 'UASC' visible. Several large red cranes are positioned along the dock, with the word 'CHARDKAI' visible on their structure. The sky is a clear, pale blue. A semi-transparent white box with a yellow vertical bar on its right side is overlaid on the left portion of the image, containing the text.

OUR VISION

To be the leading marine and oil and gas support services provider in Africa, by becoming a strategic partner with our clients in execution of their businesses.
